REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, U.S. Patent 5,681,297 to Hashimoto et al. fails to disclose the compositions, sensor, and actuator all being located within the diaper. While Hashimoto discloses a diaper system including a washing composition, sensor, and actuator, the composition and actuator are not located within the diaper itself. U.S. Patent 5,570,082 teaches the inclusion of an actuator along with a sensor within a diaper, but does not contemplate a composition within the diaper that is delivered by the actuator. It is further noted that composition disclosed by Hashimoto is not the same as the compositions disclosed in the instant specification, and therefore Hashimoto would not be expected to exhibit the claimed Waste Contamination Area and Mass results. Therefore, the prior art of record does not disclose nor fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The terminal disclaimer filed on 12/21/2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent Nos. 6,093,869, 6,186,991, 6,384,296, 6,395,955 has been reviewed and is accepted. The terminal disclaimer has been recorded.
